

# COVID 19

## Friday Follow-up

5/15/2020

**Clayton School District**

Superintendent Ed Cerney

# Hello, Clayton Families!

- As I create and send out this Friday Follow-up, I am encouraged by the number of people that continue to follow appropriate safety measures to prevent a potential sudden surge of COVID-19 cases here in Northwest Wisconsin.
- With the turmoil in Madison this week once again showing how quickly expectations can be changed, we are staying the course here at the school and taking the more cautious stance against any possible contamination within the building.
- While businesses are being opened thanks to recent events, school districts were not included in the State Supreme Court decision, and we remain closed for almost all activity, until June 30<sup>th</sup>.

# SENIORS:

- Today was the last day for you to receive instruction. In honor of your perseverance and accomplishment the school district has created posters applauding you, and they are hung up on the fence along POLK Ave to announce your completion of high school.
- CONGRATULATIONS
- I also hope you are proud of the Graduate Signs in your yards that were dropped off. We purchased a few more, so if you need another sign, for a second house you live at, please contact the office. Any extras after that could be purchased if you wish.

- Your TURN IN day for technology and any other material is Wednesday May 20<sup>th</sup>. Students are grouped and assigned times, so that we do not have a large gathering of students, at any given time, as required by the School Closure Rules. Please drop off your computer, case and cords as well as any other school material at your assigned times, as noted in the information provided by Mr. Nadeau. If you wish to purchase your computer, as we have allowed in the past, please contact Mrs. Polta before the 20<sup>th</sup>.
- In spite of the confusion with multiple notices last week, we have continued to try and find a time and date that we would be legally allowed to gather and provide a Commencement Ceremony. Today Mr. Nadeau will be sending out plans developed by your advisors and classmates.
- So until I have an opportunity, to tell you in person. We wish you the best of luck and are very proud of you all!

# Turn In Days for all other students

- The instructional part of the at home instruction for all other students will be on May 22nd.
- We will start with the Turn in Days on Tuesday, May 26<sup>th</sup> with the JK to 3<sup>rd</sup> grade students. Please bring in any technology they have borrowed from us and any library books that need to be returned. A scheduled time for groups of students is being sent out and provided by your instructors, also. Please follow the listed times so that we do not have a large group trying to return items, at the same time.
- Items left by students in their desks will be ready for you to take home. Come to door #1 and we will let you in individually to drop off and pick up items in the elementary commons.

## Turn in Days continued...

- Wednesday May 27<sup>th</sup> will be turn in day for grades 4-8. Please bring in the chrome books that were sent home along with the charging cords, hot spots (if provided) and any other school items. Also please refer to information provided to determine the times you can turn in items.
- Thursday May 28<sup>th</sup> is for grades 9-11. We need to collect the MacBooks from all students that are not signed up for Driver's Education, or taking a credit recovery class. Please bring any school materials, hotspots and of course your charging cord with your laptop. And arrive during the assigned times so we do not have too many at any given time
- Friday May 29<sup>th</sup> is for any student that could not come in on the scheduled day for your child's grade.

# Summer Projects

- As I've been warning each week we will be doing some major work on our parking lot in June to eliminate the major cracks and deteriorating asphalt. It will also be regraded so that water and the snowmelt runs off the parking area more efficiently. The offices will continue to be open during the entire summer, so please be aware of closed entrances and signs directing you to the offices during that time. You can expect to see that work starting after Memorial Weekend.

# Thank You!

- Thank you for your support of what we are doing to provide meals, instruction, and support to your children during this unprecedented event.
- Together we can get through this.
- Have a Great Weekend!

# COVID\_19 Information Tab on the District webpage

- Please access our webpage where we are posting the scripts for these videos as well as other pertinent information.
- Please feel free to access the links on that tab. We will add additional information as we feel it is relevant and try to provide you with factual information, so you can be as informed as possible.
